

APPENDIX A-52

FRACTIONATION CODES

1. Number of characters: One.
2. Type of code: Numeric.
3. Explanation: This code is used to categorize an item by annual demand dollar value (using Acquisition Unit Cost) for assignment to a fractionation process (as described in chapter 29) and for inquiry into Fractionation Tables and Entries for detail data.
4. Source: This code is mechanically determined and recorded for use in the Fractionation Reports.
5. The following codes are assigned:

<u>CODE</u>	<u>DOLLAR VALUE ANNUAL DEMAND</u>
1	None - Items in the system more than two years and having no demands during the past two years.
2	None - Items in the system more than two years and having no demands during the past one year. None - Items in the system more than one year, but less than two years and having no demands during the past year. None - Items in the system less than one year having no demands and having no NSO, QFD-System or QFD-New quantity.
3	\$.01 to 17.00
4	17.01 to 152.00
5	1502.01 to 400.00
6	400.01 to 1,369.00
7	1,369.01 to 4,500.00
8	4,500.01 to 14,000.00
9	10,000.01 to 15,000.00
10	15,000.01 to 25,000.00
11	25,000.01 to 50,000.00
12	\$50,000.01 to 100,000.00

<u>CODE</u>	<u>DOLLAR VALUE ANNUAL DEMAND</u>
13	100,000.01 to 500,000.00
14	500,000.01 to 1,000,000.00
15	Over 1 Million
